Privately Owned Firearms Guidance

This pamphlet is for informational purposes only and guidance may change. Please refer to the Hurlburt Field Integrated Defense Plan for current policy or contact Security Forces Police Services at 884-7476.

WHO THIS APPLIES TO

The following measures apply to all personnel entering the installation to include privatized housing, dormitory and billeting residents possessing privately owned firearms (POF).

- Each military sponsor responsible for a privatized-housing unit will ensure all POF stored in their housing unit are secured in an appropriately constructed locked container; this includes Fam Camp. POFs should be equipped with a tamper-resistant mechanical lock (i.e., trigger locks) or other safety device.
- Ammunition may be stored in a locked drawer of a gun cabinet or stored in a gun safe. Ammunition not stored in a gun safe will be placed in another location (separate from POFs).
- Each organization on Hurlburt Field will direct POF registration by its members residing on base using the AF Form 1314, **Firearms Registration. Registration information and safe storage certification will be forwarded to 1 SOSFS Pass & Registration for tracking purposes. At no time will an individual bring the POF to Pass & Registration for registration.**

DORM RESIDENCE

Personnel residing in dormitories and billeting are not authorized to store POFs in their rooms or vehicles. All dorm and billeting residents will store their firearms in the 1 SOSFS armory and make arrangements through their unit for all other POFs. **For information on storing firearms in the 1 SOSFS armory contact 884-6261.**

PRIVATE SALES

The private (individual to individual) sale/purchase of POFs on the installation is restricted to individuals who reside on the installation. Individuals who reside off base will not bring POFs on the installation for the purpose of advertising, displaying, or selling. The commercial sale of firearms on the installation is restricted to 1 SOFSS Rifle and Pistol.

AAFES SALES

If you make a purchase during the duty day, ensure you secure your firearm safely within your vehicle prior to returning to work. The maximum amount of time you are allowed to store your firearm in your vehicle is 24 hours. Ensure you make appropriate arrangements within the criteria listed in the pamphlet for your new firearm.

RIFLE AND PISTOL CLUB

Active members of the Hurlburt Field Rifle & Pistol Club or Skeet Range may transport privately owned firearms onto the installation and may temporarily store them in a privately owned vehicle for use before and after duty hours. Firearms must be unloaded and securely encased in a compartment out of reach by the driver and passengers; privately owned firearms must be stored in a manner that makes them not visible from the outside. Lockable containers are preferred; however, they are not required when all vehicle doors and trunk are locked. Ammunition will be transported in a separate container than firearms.
